Council 10-retired held its annual meeting, May 12<sup>th</sup> at the St. Francis Brewery. More than 30 members enjoyed lunch and camaraderie. Our guest speaker was Bard Meier from the Hunger Task Force, who explained the many services provided which includes a warehouse operation to supply food pantries, summer student lunch programs and the operation of a farm on the grounds of the House of Correction in Franklin.

The farm raises fish as well as ground crops and serves as a learning center for urban children to experience growing and harvesting food. Volunteer opportunities working with students on site, as well as food pantry work are available.

Proudly, our members contributed 5 large boxes of food including peanut butter, fruit cups, and granola bars. Baird was surprised and overwhelmed with our generosity. **Not only was his talk informational, but also we once again had the opportunity to help students.**

*Just a side note: The House of Correction has a school for the youth population. Franklin Public schools employ the Educators and Para-educators and these employees are part of the bargaining unit.*
